LRI
The Long-range
Research initiative

The Long-Range Research Initiative Programme (LRI) of the European Council for the Chemical Industry (Cefic) is organising a free workshop to showcase the result of the LRI sponsored project on the Advanced REACH Tool.

The workshop will combine informative presentations with practical case exercises through which participants will get acquainted with the tool. The objective of the workshop is to introduce the ART to the participants, explain its scientific and regulatory background and to get started with the tool.

Attendance open for Cefic members. Application for registration to send to Marie-Claire Vincent at mcv@cefic.be

More details can be found on: www.cefic-lri.org and www.advancedreachtool.com

Reasons to attend

Hands-on: Discover the ART tool for yourself, and get practical tips and insights from its developers on how to use it.

Networking: During the event each delegate gets the opportunity to discuss and debate with experts
