## Episode 3: 2015 before REACH 2018

# **ALTERNATIVES**

## **for Skin Sensitization Testing**

# The outputs ?

- An industry Flash Report (1-2 pages) (very soon!)
- An internal ECHA report (1 page) (fairly soon)
- Approved slide sets on two websites (quite soon)
- A peer reviewed publication (this year)

# More questions ?

- Best use for classification ?
- Success gauged by quantity + quality + acceptance
- Animal use addressed by in-vitro, but manage €?
- Availability: which CRO's offer what ?
- Timing of tests pre-REACH 2018 ?
- Reaching out to SME's (dissemination) ?
- Alternatives on other endpoints than skin ? Eye ?
