INSTRUCTIONS EN CAS D'URGENCE
EMERGENCY INSTRUCTIONS

What is LRI?

- **High quality research to achieve responsible chemical management**
- **Knowledge input for effective policy decisions**
- **Capacity building for emerging science**
- **Collaboration between experts in industry, academia and governments for high impact**

LRI – A Global Program

- **The global ICCA-LRI program targets the science-policy interface to modernize and improve chemical management.**
- **The three regional LRIs identify common scientific topic areas that industry regards as important to form the core of the program.**

LRI Workshop Opening

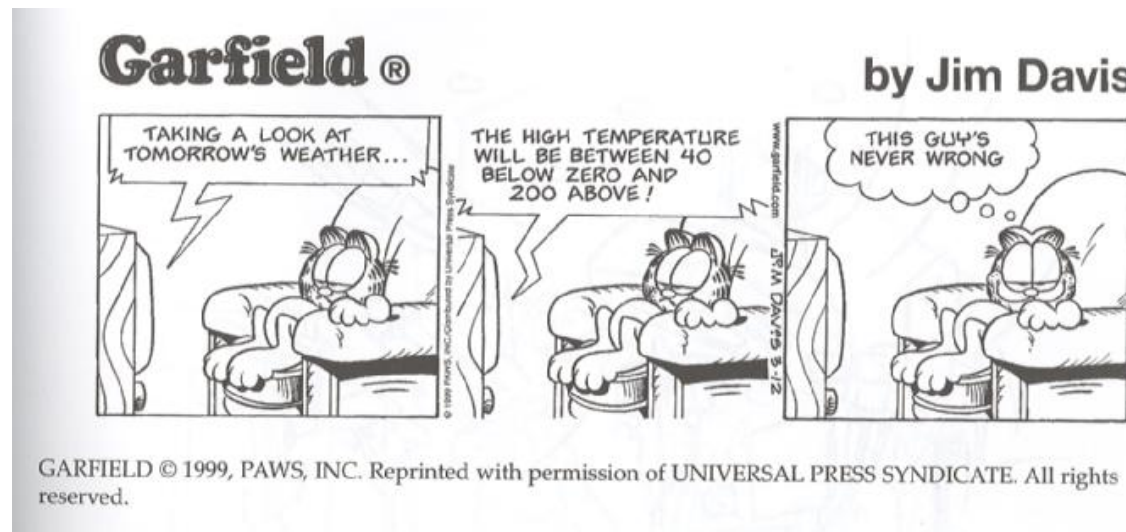

- **Enabling Decision Making –**
Adri Postema, Shell,
R&I Program Council
- **Right Science for Right Decision:**
Key Priority Issues of the Belgian EU
Presidency
Roland Moreau, Federal Public
Service Health, Food Chain Safety
and Environment

“Reducing Uncertainty Enabling Decision Making”

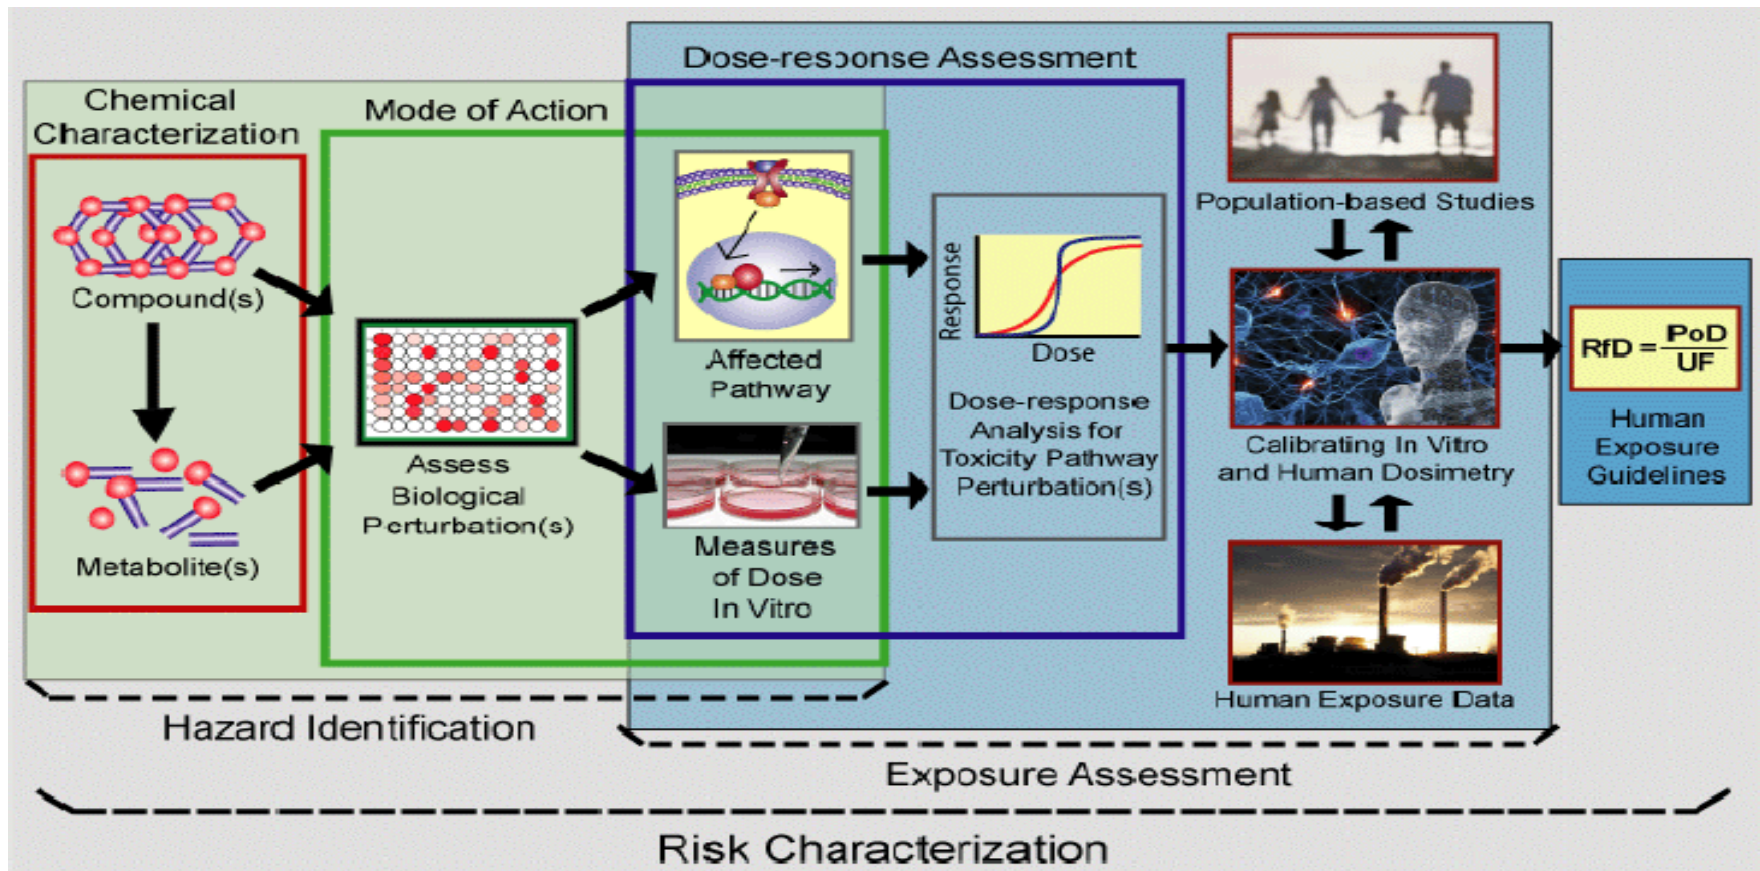

Uncertainty

- **Quantity, quality and relevance of data**
- **Reliability and relevance of models used to fill data gaps or replicate known results**
- **Assumptions, scenarios, and decision options used in applying the assessment**

Risk Assessment Paradigm... more complex

Cefic-LRI 12th Annual Workshop

- **9:30 – 12:00: Plenary sessions: «*Recent LRI Science Achievements in key issue areas*», chaired by Richard D. Phillips, ExxonMobil, LRI SIG Chair**
- **13:45 – 14:30: «*LRI Innovative Science Award*», chaired by Matti Jantunen, THL, ESAP**
- **14:30 – 17:20: «*LRI Research vision*», chaired by Ian Kimber, University of Manchester, ESAP**

2. LRI Strategy Focus
