INTERNATIONAL SOCIETY OF EXPOSURE SCIENCE
2016 ANNUAL MEETING

This meeting will bring together experts and practitioners from academia, government, industry, and non-governmental organizations dedicated to the protection of health and environment. Exposure science is a dynamic field that

- › Fosters interdisciplinary interaction to promote solutions to complex environmental and public health problems;
- › Develops state of the art methods for measuring and estimating exposures;
- › Addresses exposures to chemicals as well as to radionuclides, pathogens, food and drinking water contaminants, and pharmaceuticals through traditional and innovative methods.

SYMPOSIUM AND ABSTRACT SUBMISSION

The ISES 2016 meeting theme is "Interdisciplinary Approaches to Health and the Environment." Within Europe the Netherlands is known for its poldering strategy, which achieves agreements on complex issues by connecting stakeholders through dialogue. At the ISES 2016 Annual Meeting we will use this strategy to address topics such as:

- › Bridging Disciplines in Exposure Science to Inform Policy
- › Connecting External and Internal Dose for Risk Assessment and Source Mitigation
- › Development and Harmonization of Exposure Assessment Methods, Databases and Models
- › Emerging Chemicals: Innovative Approaches to Detection and Assessment
- › Developing and Advancing Exposure Science Education Programs

We invite the submission of Symposium Proposals on these and related topics.

Symposium proposal submission: Opens 1 November 2015, closes 20 December 2015.

General abstract submission: Opens 1 February 2016, closes 13 March 2016.

LOCAL ORGANIZING COMMITTEE

- › **Yuri Bruinen de Bruin**, Chair, RIVM, Bilthoven, The Netherlands
- › **Lesla L. Aylward**, Co-Chair, Summit Toxicology, LLP, Virginia, USA
- › **Paul Scheepers**, Radboud university medical center, Nijmegen, The Netherlands
- › **Roel Vermeulen**, IRAS, Utrecht University, Utrecht, The Netherlands
- › **Debby van der Vliet**, RIVM, Bilthoven, The Netherlands
