

THE TOXICOLOGY FORUM

Determining Relevant Low-Level Chemical Exposures for Safety Assessments of Consumer Products

May 20–22, 2019 | The Hotel Brussels | Brussels, Belgium

Call for Open Abstract and Presentation Submissions Begins October 1, 2018

MEETING THEMES & TOPICS

- **Advances in Analytical Methods: How to Detect and Quantify Relevant Low-Level Chemical Exposure from All Routes?**
- **Experimental and/or Modeling Approaches?**
- **Global Databases for Exposure Information**
- **Guidance for Practitioners, Recommendations for Policy Work and Public Communication**
- **Towards a Risk Assessment Best Practice Framework**

Meeting sessions and posters are scheduled and built around the five themes noted above. **The Toxicology Forum looks forward to your contribution to the dialogue!**

For complete details, including the scope of each session, the meeting schedule, registration and hotel information, and abstract/presentation, please visit the website.
